

Akhil Jaggari

SENIOR IDENTITY INFRASTRUCTURE ENGINEER

Specialist in AAA (Authentication, Authorization, Auditing) and AI Agent identity security. 5 years experience scaling distributed systems at KitchenSync and Berkadia.

TECHNICAL SKILLS

Python, React, TypeScript, Java, OAuth2, SAML, OIDC, SCIM, AWS, Kubernetes, Terraform, Kafka.

EXPERIENCE

Senior Software Engineer - KitchenSync (2026-Present)

- Architected secure identity infrastructure for 1,000+ businesses using OAuth2 and OIDC.
- Engineered MCP server infrastructure for secure AI Agent data access with least-privilege scoping.
- Achieved 99.9% uptime for critical financial transaction flows via Kafka and Python.

PROJECTS

Secure AI-Agent Gateway (MCP)

Designed MCP-compliant identity bridge for LLM Agents with real-time audit trails.
